TIPS AND TRICKS

- Prepare poses beforehand.
- Click as many photos as you can in the given time frame.
- The real challenge is your posing game.

POSE AND PLAY PHOTO STUDIO

Self-Portrait Studio based in Nawala Road, Nugegoda

We're a Korean-inspired self-portrait studio where you become both the photographer and the model. The studio is completely private, with a live preview screen and a remote in your hand — so you control every pose, every frame, and every moment.

We offer three challenge-based packages depending on how bold and creative you're feeling. Within your session time, the goal is simple: capture as many amazing poses as you can and prove how strong your posing game really is. The challenge is to click the right pose in the right frame in the given time period. It's fun, a little competitive, and completely pressure-free.

No photographer watching. No awkwardness. Just you, your vibe, and the freedom to create magic you'll cherish forever.

And here's the best part — you can turn any of our packages into your own concept: Family time. Love stories. Save the date. Pet love. Graduation fun. Best friend chaos. Sibling madness. Birthday energy. You name it.

We give you the stage, you bring the creativity.
Low-key iconic. High-key unforgettable.
